The easiest way to "destroy dirt" is covering them by thick layer of vegetation, lawn grass (cyan/Wood) all over. They will keep dirt (yellow/Soil) under control. Soil cannot be removed from eco-system, they are everywhere. You need to learn how to manage them effectively

Race is like subspecies. Biologists study (sub) species often. It is valid science as long as you know how to explain it scientifically. It is usually a concept at population level, understood by math (such as by cluster analysis) , not about individual. So you should generally avoid judge individual by the race (subspecies of homo sapiens). But there are group traits collectively. My PhD in UQ was this sort of study. It was an international quantitative study. There are obvious differences. And many other scientists have found national differences on aspects too. You can see the trend of race from these studies. It is important to learn the biological and culture difference of population scientifically, so you are not fooled by deception of dark energy worldwide http://m.gooeasy.info/south_view.php If your information about people is not accurate, it is not fair. 'I don't see color'. It is like saying 'I don't see sex'. There are sex differences. However sex is spectrum, race is also spectrum

Yeah, back to my experience yesterday, I only liked to Manunda because I ate big lunch. It made me hot. The day I walked to Gordonvale from Woree in the Sun, I only had mango and water. Eating less/healthier can reduce your aircon/cooling needs. Diet is important part of holistic well-being. Before complaining Cairns being too hot ask yourself if you eat too much. Ask yourself if your lifestyle fits the (changing) climate. Ask yourself if you removed the plants that were blocking solar radiation for your property... Even grass knows to adapt to the environment, some humans cannot. They are less intelligent than the grass? (weeds in their language)

As you may know, I made a sport project Run Away Team FB.com/run.away.jm The name was from paper dictionary divination. The development so far shows again, it is an awesome little: I was away (from office) when predators were active; we got flooded, pets were running away; away is A-WAY, my church does not claim ownership of the way, the divinity - explained in FB.com/groups/Mencius.BC. The run-away also links to truth of CCP Long March. There are disputes about the facts, even within CCP. Some think popular narrative was glorified/exaggerated "religiously". Marxism is not my religion

The divinations asked me to go out in the morning (8 or 9) and around noon. The Sun was pretty harsh during the long hiking. I was wondering why I should go out at those times repeatedly. Now I know. Talked to lots of people these days as I am enjoying my work outdoor. Many I talked to show disbelief of how far I walked in the region (from Holloways beach to Aloomba). And I haven't told them I don't have meat in my diet. Like yesterday I walked 30km, but I only eat wild mangos and rain water. I think hiking is probably easier for people on healthy diet, in a good/green environment, and in the Sun. Consider the possibility I said before, humans can recharge from the Sun directly

Based on new random cartoon today, I think our INS (spiritual.home.au) is a parody too. The profile picture was generated by divination. I got the orange colour multiple times during hale crime against me. Looks like some impersonator of me w. bad tastes. The person probably like to show off body shape too. I have been wondering about why the divination cartoon on the INS did not look good, but on my other social pages, they look good awesome. Probably it is the energy of my impersonator https://www.instagram.com/spiritual.home.au/

If your lucks during teenage/youth are/were good, it is a sign you have strong Wood energy. The period in human life cycle is Wood, in Chinese youth is called Cyan-Spring (青春). Cyan and Spring are both Wood energy. My luck was not very good then. It is an agreement with my other body features, I don't have the look of muscle blocks , muscle is Wood layer of your body from outside to inside. So small Wood region (waist) overall. Overall means your energy pattern change during your lifetime. because your life stages add energy into the base. For example middle age you has more Metal energy than childhood you, older you has more Fire energy than earlier you

-	2023-09-16 13:51:22
I may have more than average Fire-Metal elements because of my shoulder shape(直角肩) . This element is essential for interesting shows/films if you studied media production	
-	2023-09-16 13:46:04
I have average amount of Metal by international standard. Many of my features are like that, average. Taoist view is the average/moderation is the best. It has lots of truths inside. For the reason people "brand" (立人设) themselves in the entertainment industry often look stupid in the long run. Everyone is complex. You may win with the brand now, when the flow goes to opposite side, you fail	
-	2023-09-16 13:28:33
Properly development is to do with the Soil element	
-	2023-09-16 13:27:05
People who have under developed jaws may be short of Soil/diversity in their thinking and beauty standards. They may develop tyrannical/narcissist beauty view based on own features and call others ugly. This kind of people are just bullies. If you study animal breeds like dogs you can see there is no superiority of different dog features, they are all just dogs 🐶	
-	2023-09-16 13:04:32
Divine:👁️ historical stay significant go hire large birth more 🧐 guide 🧐 aim properly self appreciate (See Dr Jenia Meng's website: ED.GoodEasy.info)	
-	2023-09-16 13:00:03
So overall energy pattern based on my body feature: I have larger Sun energy (head), less Wood (waist, neck, cheek) energy, and average amount of soil energy, my Jaw is full. It is a reflection of reality: My job is scientist/Sun, I avoid meat half of my life, and my thinking is more like Soil/inclusive than average people: my sacred geometry is all in one	
-	2023-09-16 12:44:18
Detail of the elements in my pictures of creation http://taoism.goodeasy.info/network/article.php?id=14	
-	2023-09-16 12:29:12
The overall Soil of you is your connection to land (inclusion, diversity). The paradox is like males are not given much Soil by the God so they fight for rights of land. Aggression is insecurity	
-	2023-09-16 12:26:34
People have developed jaws (many big leaders, "kings" and "queens" have the feature) have more Soil/land on their mind, they often look younger when they get old, as Soil is skin too, they can have thicker skin on the head. Your overall Soil is around your hip, so females often have more Soil energy than males	
-	2023-09-16 11:49:32
So my cheek hollow isn't very noticeable too	
-	2023-09-16 11:41:07
Asians don't usually have this feature because Yellow/Soil is thicker skin, which makes the cheek hollow not very noticeable	
-	2023-09-16 11:18:19
I have that hollow cheeks naturally even though I tend to have more fat on my face than on my body	
-	2023-09-16 11:12:32
https://www.lorealparisusa.com/beauty-magazine/makeup/face-makeup/how-to-get-high-cheekbones I don't like to talk about looks because it is superficial. There should be no fix standard of beauty of female because it is like tyranny. But there are some features people from different cultures can agree statistically. One of it is small Wood(in my seven element) area of your body, it includes, waist, neck and the area between your cheek bone(Metal) and jawline(Soil). The makeup attempt in the link is actually trying to make the Wood area on your face look smaller, by using dark powders. It is like women trying to reduce waist size by belt. And small neck is associated with larger head visually, it is a sign of smart/holistic people, female energy. Wood area is cat energy. No surprise really	

Uploaded a photo, the visiting cat found comfort of sleeping in the chicken cage today. I hope he stay there forever so the chicks in my garden are not harassed

Pollution diffusion is a global problem, no one can say it is not their problem. Teritory/caveman thinking is the last thing we need to solve the important issues in the warm temperature	
-	2023-09-16 07:17:27
Good living environment is crucial for all animals, human included. For example, can your technology protect yourself from pollution of nuclear waste, which will enter all aspects of your life via cycles of nature (diffusion of matter)? If not your "technology" is not good enough, you cannot even protect yourself	
-	2023-09-16 07:12:16
Tecnocracy is the new slave planning. The sense of elitism of technology is false. If they are so superior why do they depend on food and clothes that are produced by farmers on daily bases. "Technology" is not the first/crucial need of human animals

I saw bandicoot in the garden just now, haven't seen her for long. The cats are generally nice to the bandicoots. They are like seeing aliens every time, too intrigued to hurt them. I went shopping locally today, came back sleeping, made savory vegetable soup for dinner. I can look half of my age. It is to do w. cruelty-free diet. Vegetarian diet has about half carbon emission. Halves the karma. I did not care about my look in the past (my Soil energy), I strongly believe inside/brain is more important. These days, I just been taking care of my look a bit more like average people. To me it is interesting new experience. After all, we should be kind to all creatures. Australia is "easter"

Interesting the fat girl appeared at start of both season (the cartoons are random). Probably also to do with the Moon energy: it is the energy of new start. It is also Moon-day	
-	2023-07-10 11:45:08
I see the big girl a blend of my energy and some who are closely associated with me. I am obviously not fat. It can be a collaboration or parasitism. Biologically there can be no much difference for the two, they are a union to the outsiders regardless the intention of the individuals. The Taoist view: your enemy is your partner. If you really want to get ride of a parasite, don't fight back. Ignore it (when it is possible). When you involve with them a lot in any mean, the two sides pick up energy from each other

你和伴侣必定进行一些能量交换综合， 所以伤害女克夫的说法不是没道理： 你把“官”运输送给她了	
-	2023-07-07 02:03:49
伤“官”(权威)是命缺权威能量?所有你缺的虽然会阴阳法则相互吸引， 但归归不是你的， 命缺就是缺， 很难补的。 要自己五行均衡才好。	
-	2023-07-07 01:41:43
主流八字和各民族历法一样， 是对天文周期及阴阳五行之类能量进行描述的理论体系， 不精确并可能有错， 比如天文周期里天和年的长度都是在细微变化的， 所以八字有关解说的， 看描述的特性更加有意义。 我说了很多时候条件更准 https://www.earthdate.org/episodes/the-days-getting-longer

我认为真正的神性是动物性，不是说被主流曲解的动物性(畜生这种负面概念)，是纯自然性灵性。拿动物骂人(比如骂人是猪这种)只能说明你自己没文化，不懂科学，不懂绝大多数动物的道德。以前遇到别人说我是蟒蛇我很高兴呢，多民族的图腾，我还在节目里主动拿这个说自己。所以一看那些画风色调全白的所谓“仙侠剧”就扫兴，你们这是在拍Ice Age连锁吗？伊甸园可不是这么冷的

I fell in sleep and studied https://en.m.wikipedia.org/wiki/Alchemy , it apparently has different view of toxicity compare to mainstream science. I noticed this sort of gaps in my study of herbalism. Many plants are mislabeled as "toxic" but people don't talk about side effects of regular drugs as toxicity. So my point is, there are error/bias in the mainstream view http://aa.godeasy.info/images/g2.jpg Some considered toxic are actually natural remedies. I have list of items on my mind that the "toxicity" are overstated, but I cannot name them here because of my public responsibility: I predict them to be rather safe in theory but never tested them in experiments. For similar reasons I did not release lots of my predictions. Divination says I am not making new cartoon this week, maybe next week

I love this genre of videos online: natural animal video, with funny human voice acting. You need talent for writing dialog/script for the kind of video. I prefer philosophical writing with examples, at this abstract level, any interpretation of words is possible, and people can define words in own way, which is not common. If someone wants to argue with me that "balance is not harmony", sorry I don't have time for this kind of thing ATM. I see them synonyms often. I don't argue for argue. Writing is for passing meanings, language is a communication medium without absolute precision

Had a dream, saw a possum confined on a window in a crowd, the poor soul cannot move. I ask who did this, trying to rescue the animal, I am told it is a scientist, And a man come out. I told him I studied animal welfare. The dream was interrupted to fights of chicks in my garden. I wish to raise the awareness to the issue of animal research - experimentation, testing, vivisection on animals in the universities. Cruelty in name of science is still cruelty, it says bad characters/ethics of the researchers. They are teaching cruelty to the public and students. University should be the last place for such barbaric behavior. Vivisection should be replaced by intemship and other alternatives. My volunteer team wrote research articles of alternatives. Search 'animal rights testing' online. People volunteer to the cause because they can see something seriously wrong in the practice of mainstream. Let's not talk about scientific achievement when you cannot even be a decent human being, a kind soul

I think one reason the divine used the big girl in my current church series is to stop people in mainland China from impersonating me. It is an Australian energy. I knew the situation was bad, they tried to shadow ban me on Chinese social media, so they can block the true creator. But when many are doing so, no one impersonator can take all credit, because they are competing with each others too, it was amusing to watch the fights on my holiday 😊

The egalitarian tradition/Taoism in China are oppressed by people supporting mainstream/Marxist/patriarchal politics	
-	2023-06-23 07:33:18
I have wrote this before: diversified political system doesn't mean equality of people in the end, because the tradition is different, for example East Asians have egalitarian/vegetarian culture Taoism and USA had the slave trade. The history would affect interpretation and implement of laws at grassroots level. Cross-cultural comparison of political system is often not useful. In theory, nations close to magnetic South pole should be more egalitarian on average. We can expect a diversified political system (democracy) delivers more choices in the same country. Monopoly is often a 'NO' (predator) sign

在微博上说了，说任何人不好看都是不礼貌有进攻性的，某些人在霸权文化里生活多了基本礼貌都不懂。在我看来你要告诉我任何物种长的不好看我都很可能认为你不靠谱肤浅，其实很多被称作美的人和特征是靠有攻击性获得美的定位。美从生物演化角度没有定义，适者生存，自然变异多样化，也这个角度说，大众脸普适脸(比如中国的单眼皮，低鼻梁)可以说是最“美”的，人那么多多是适应性强的表现。某些人，你戴鼠鼠眼的样子人家不骂你是因为人家博爱，别不自知

-	2023-06-22 08:07:50
动物园大多数情况下侵犯动物的自主权, 我百科里的文章“ 动物园 (广义) 本条目初稿作者: 草包摘要动物园是指将动物园养起来展示给公众看的场所。目前全世界对外开放的动物园超过1000个, 其中80%建在城市里。通过游览正规的大型动物园, 我们得以观赏到来自世界各地的不同动物, 了解它们的生活习性, 丰富野生动物知识。根据1993年《世界动物园保护策略》, 动物园具有4大功能: 野生动物迁地保护、科学研究、科普教育和休闲娱乐。动物园从最初的影显地位的私人兽馆演化为科研性质的动物场馆, 再进一步演化为融合了商业娱乐设施的大型综合性动物园, 这整个漫长的过程中动物园的立场和功能也随之不断变化。动物园所标榜的生态保护和科普教育功能在一幕幕动物被迫或非正常死亡的事实中频频受到抨击, 而动物园及相关单位也在人们的质疑和抗议中开始探索争议问题的解决之道。然而无论动物园方面如何修善园区, 改善动物福利和加强管理, 都无法规避一个最原始的问题: 不管出于何种目的, 人类是否有权利将各种动物关进牢笼里? 带着这样的问题, 让我们一起来看看光鲜趣味的动物园鲜为人知的一面。” http://appedia.arc.cqpn-online.info/pmwiki.php?n=%e7%9f%a5%e8%af%86%e5%ba%93.%e5%8a%a8%e7%89%a9%e5%9b%ad%e1%bc%88%e5%b9%bf%e4%b9%89%ef%bc%89?action=print

Put on my hard shoes, stepped out new paths in the garden while doing maintenance. Right now access to the Soil and Wood positions of the garden is rather easy: You can put my sacred spiral in a square and use the elemental positions to mark positions of the square and predict the energy. The pawpaw tree is at the Soil position of my garden, Soil is childhood (not baby), Wood is youth. 青春, the Chinese characters actually mean "aqua" and "spring". Aqua is the background colour of my Church and is between the colours of Soil and Wood elements in my Spiral, so you know. I am up. The lyrics of Credit of Cat can actually be read in two opposite ways. One is giving credit to cats for opposing immoral things, the other is bad behavior records of cats. Which way is your choice. I copied it here: 那个特定的社会/个人信用体系/猫咪同事/明确的暗示/在一边反对/道德的错误/毯子的隐私/(重复前面)

Had to loose my belt for yummy dinner, vegans meals can give you large belly short term (hours) because low energy density of food gives it larger volume. It goes away quickly after digest. The same reason you can hardly put on weight in vegan diet: you inside will be full before you can over eating. I wrote before, ideally vegan meal should be smaller and more frequent, like herbivores do, eat all day long

If you want more Wood elements, eat green vegetables: Eat the colour of the element. The colour pigment in leaves are actually cyan, bluish (BTW I taught online before, cyanobacteria, is chloroplast in plant cell. You should see now a plant is a community of microbes. This is the reason in mythology people says the forest as a whole is a creature. Definition of individual is arbitrary) Vegetables look green not cyan because it also have Soil element, the yellow colour. My elementary system is based on very good science

幼：在床上晒太阳，手机上干活太爽了，只是不小心睡着了🤔去梦里逛了一圈灵。我清楚的记得一些这些年来梦里去过的陌生的地方，2005年前后在布里斯班，漫游梦到一个极光绚丽蓝天白云还有铁轨的沙漠雨地方，地面的水体反射着阳光，整个画面光影很强，有卡通的艺术感。昨天晚上做了，和我们本地区原生雨林的鸟瞰照片比较类似，但那个梦要美很多倍，美的不真实，像天堂，还有一次飘去了两层中式房子的阁楼，难道是民国？也去过沙漠中间的小钱房子，和空牢房间里的大床；某次梦里好像住在一排花圈似的玻璃房里；还有某次去了个海滨城市旅游.....

Well I cannot upload the video. Basically, it is crop circle of 2 meter tall grass around, holistically/ very clean/comfortable inside: Sun cooked rain washed daily. Any protein/sugar rich drops here will be removed by the volunteers (ants) soon. The centre has an impressive layer (about 5cm) of dry grass on top of scented soil. The surface is usually lifeless because (bad) bugs are afraid of direct Sun. The grass are scented too, I put a blanket on top of the layer and sit here

Text more notable in the reading poster is notable messages. It looks like my scientific education of divinity/Tao on the left side (I have been teaching in Chinese social media) worked. I usually trim backyard garden by scissor. Industrial solution/machine is not helpful. We have so many small animals, I don't want to hurt them. For example, the lizards are very curious. I was laying on grass relaxing one time, two of them came out, one standing on my arm, looking at me from up to down, with their cute eyes...the lizards was like: I haven't seen you before, what are you doing here? (with a smile) Very fun. Most people have predatory vibe, from eating meat/industrialisation culture. They don't get chance to study the mind/magic of different animals/nature: the animals run away from humans or they get killed. Since I was little animals seem to have more trust to me, me and a smaller girl would approach a dog, but the dog would barking at her, not me. Animals can read your mind. If I caught the cats hunting indoor, I always try to release the preys. Industrial solution are often insensitive/ cruel. Check out the crime of "factory farming" online. It was invented in USA/Europe, stupid Asians followed it to farm bile bears in Asia. The system is foreign, not Asian

I have influence. But I prefer being a sole trader for business. It is to do with my philosophy. Many scientists are sole trader. Our job is providing independent/reliable opinions. I don't care to control other, not a control freak. I prefer cooperative/egalitarian relationship with people. People who are brainwashed by male culture think if you do not want to be a boss (being mean to subordinates) it means you are weak. Not at all. The soft energy/chi can have more influence on people. Regular corporation structure is hierarchical, restricts my freedom (of thinking). The structure of group also forces me to endorse things I do not like, it is implied. I can not do it for professional reasons
